

Do you know a student who would benefit from having internet at home?

The Broadband Booster Pilot Project is a plan to provide Broadband services in the homes of students who cannot otherwise afford the service. Broadband services are an important tool for students in their efforts to pursue a quality education.

For more information or to see if you qualify for the program, call 575.748.1241 or visit www.pvt.com.

50% OFF

of monthly internet price for 12 months on the lowest offered speed for qualified households who have at least one student in grades Kindergarten to 12th grade.
